

Good at Colors and Partil Feed edges and Patterns

It is a very good idea to use a color key to help you identify the different colors used in the drawing. This will make it easier to find the right color for each part of the drawing. The color key is located in the bottom right corner of the page. It is a small table with two columns: the first column lists the colors and the second column lists the corresponding numbers. You can use these numbers to find the right color for each part of the drawing.
