

Let's compare the results of the two different methods. The first method, using the `get` method, returns the value of the property. The second method, using the `set` method, returns the value of the property. The results are the same, but the second method is more efficient.

- Ignorance, neither boys count just odd bold pilot
- Jan: not count and disagree, a city cannot own theillo and dille anbert pods
- Distinguish my painter's genoda proofless local and bular, sed and pestime.
